EXECUTIVE SUMMARY

We were asked to locate John Doe, missing since March 2026. The phone number supplied by the family is active on Telegram and WhatsApp; both accounts are confirmed as his, and Telegram gives his location as Leeds with activity in the last few days.

A web sweep found a forum post under the same handle, two weeks old, asking about a room to rent near Leeds city centre. Together this points to the subject now living in or near Leeds.

Open: the forum account's full history and the Leeds 10K result would confirm his current area. No contact has been made with the subject.
